- ✓ E-0153 – Platform Attachment (2 x)

RECLINED FOREARM

Call your insurance company to confirm the coverage amount and process:

- Ask for the allowable amount for crutches or DME
 - New or Certified Refurbished
- Tell the representative the billing codes:
 - E0110 Forearm Crutches - pair
 - E0153 Platform Attachment - 2x, one for each crutch
- Ask for an **in-network** DME provider.

PLATFORM MODE

BENEFITS

83%

LESS PRESSURE
on HANDS/WRISTS
compared to **Traditional**
Forearm Crutches

+ Most comfort for walking long distances.

+ No pressure on hands and wrists.

+ Improves posture and core strength.

+ Less pressure on hands and wrists vs other forearm crutches.

+ More stability and range of motion, ideal for tight spaces.

20%

LESS PRESSURE
on HANDS/WRISTS
compared to **Traditional**
Forearm Crutches

Product Description:

M+D Combo Stix are two-in-one crutches. The reclined forearm and elbow support is larger than other forearm crutches which distributes the user's weight through a larger portion of the arm, making the Forearm Mode more comfortable than other forearm crutches. Additionally the user can easily switch to the Platform Mode for complete relief of weight and pressure to hands and wrists, making longer use painless.
